

BOBCAT STADIUM ART

Comfort High School's advanced art students took on the challenge of painting the Comfort logo on the Bobcat Stadium field just in time for the first home game on September 4th. Art II and III students shared the work of first laying out the design and then spray painting the logo in the center of the field after only a few days notice of Coach Rieken's request.

Eighteen focused, motivated art students worked diligently as a team to measure out the logo, set plastic cones, and then to draw out the design using masking tape, simply from studying the design. Each class then shared the work of spray painting the white, red, blue, and yellow areas of the logo.

On Friday morning in final preparation of the first home game with Devine, a few Art I students retouched the paint after the field was mowed. Art students will continue to repaint the field before each home game for the remainder of the season.
